

30 min fire rated material

# THE FIRECHECK TANK

Steel Outer, Plastic Inner

# enviro STORE

The Alternative Choice

Now there is a product available which is a real step forward in fire rated tanks... **The Envirostore Firecheck Tank.** With a combination of the strength and security of steel, combined with the practicality of a plastic inner tank, and the protection of a fire rated material, all giving peace of mind to the installer.

The inner area of the tank is clad in a 30 minute fire rated material, then completely enclosed in a mild steel outer tank, making the unit weatherproof and secure.

With the 760mm diameter width, the tank at a 1000 litres, has been designed especially with the domestic market in mind

- All fittings are accessed via a secure, fire protected, lockable lid
- No additional fire walls need be provided (a risk assessment will still need to be carried out)
- No more unsightly additional brick or block fire walls adding extra cost to the installation
- Bunded Tank, complete with the unique inner spill tray design (Fuel overfill can not come into contact with fire material)
- Apollo visual contents gauge
- Fittings kit for bottom outlet
- Top outlet available
- Overfill prevention valve

### 1000 FIRECHECK TANK

Fitting Kit included as standard

Unprotected tanks can be damaged by fire

*Envirostore UK Ltd, where good ideas and value for money come as standard*

A risk assessment still needs to be carried out by an OFTEC registered installer. The product does not prevent fires from starting, caution and care around the tank with regards to garden fires, BBQ's etc should still be taken. This product should only be lifted using the appropriate lifting equipment. All tanks must be fitted by an OFTEC registered Installer. The Envirostore Warranty may be affected if not installed correctly, or if any unauthorised work has been carried out on the tank, without the knowledge or permission of Envirostore UK Ltd. For details on the current regulations, consult an OFTEC Registered Engineer. The Inner Spill Tray must be kept clean and dry at all times. Locks need to be kept in good working order and can be maintained by using VWD40 or 3in1 oil.

All Bunded Tanks, including Waste Oil and Fuel Dispensers, carry a 10 year warranty. Single Skin Tanks, including Water Tanks, carry a 2 year warranty. Pumps on Fuel Dispensers, Filstops and Fitting Packs carry a 1 year warranty. Hoses on Fuel Dispensers carry a 3 month warranty. For details of warranty on Gauges, please consult the appropriate gauge manufacturers details separately.

Dimensions shown are approximate. Capacity details shown as Brimful and Nominal. Patent pending on Inner Spill Tray.
